

Anacapa Island Wildlife Cruise

SATURDAY, APRIL 29, 2023

WILDLIFE CRUISE TO ANACAPA ISLAND

This 3-3.5 hour cruise will take you through the waters of the Santa Barbara Channel. The Channel Islands National Marine Sanctuary and the Channel Islands National Park. This area of the ocean is known to have more marine mammals in its waters than any other area on the planet. Traveling from the mainland to the island of Anacapa you may see Harbor Seals, California Sea Lions, Humpback, Gray, Blue or Orca Whales. Common Dolphins, Pacific White-sided and Risso's Dolphins may also be sighted on these excursions. We will also cruise the rugged shoreline of Anacapa Island. You will see the famous Arch Rock that is the insignia for the park, as well as the seals and sea lions that make their home on the shore beneath the high cliffs. Anacapa Island is also home to one of the largest breeding populations of Brown Pelicans on the west coast. Western Gulls breed on all three islets of Anacapa, forming the largest breeding colony of Western Gulls in the world. Birds abound in the water, on the land and in the skies around Anacapa Island.

LUNCH ON YOUR OWN AT VENTURA HARBOR VILLAGE

Harbor Village restaurants offer a mix of outdoor patio dining, indoor dining, and take out and a wide variety of food choices. There are a number of restaurants offering fresh fish options, as well as different cuisines including Greek, Mexican and traditional pub grub.
